

Quarterly Report for the Period Ended 30 September 2023

Kingsrose Mining Limited (ASX: KRM) ("Kingsrose" or the "Company") is pleased to provide an update on its activities for the September 2023 quarter.

HIGHLIGHTS

- Cash balance of A\$31.81m at 30 September 2023 (30 June 2023: A\$33.84m)
- Completion of large-scale geophysical programs and commencement of drilling at the Råna Nickel-Copper-Cobalt project, Norway
- Grant of 2,736 square kilometres of new exploration licences over two Ni-Cu-Co-PGE prospective mineral belts in Northern Norway
- Submission of Penikat Area 1 Natura Assessment

EXECUTIVE SUMMARY

During the quarter the Company completed numerous geophysical programs at the Råna Nickel-Copper-Cobalt project, Norway. These represent the first modern and large-scale geophysical programs to be completed on the project, resulting in the generation of multiple nickel-copper-cobalt drill targets at the Bruvann and Rånbogen prospects. The Company continued its 5,000 metre drilling program, initially targeting extensions to the Bruvann mine which returned broad, moderate grade disseminated mineralisation including 50.0 metres at 0.43 % Ni, 0.1% Cu and 0.02 % Co (Hole 23BRU003).

Following the completion of the BHP Xplor program, Kingsrose announced that it had secured 291 new exploration licences in Finnmark County, northern Norway, totalling 2,736 square kilometres of early-stage nickel-copper-cobalt-PGE prospective ground across two mineral belts. Early prospecting work has identified a number of targets with encouraging rock-chip results. Exploration planning and stakeholder engagement is ongoing to develop work programmes for the 2024 calendar year.

Work on permitting the Penikat and Porsanger drilling programmes continued, with the Penikat Natura Assessment for Area 1 being submitted in September 2023.

The Company remains well funded with A\$31.81 million in cash as at 30 September 2023, and will continue to deliver on its current exploration programs while also assessing additional project opportunities in critical minerals.

EXPLORATION & OPERATIONS

Company Updates

During the quarter total exploration costs associated with the Penikat, Porsanger, Råna and BHP Xplor projects (Figure 1) were A\$2,246,131 (net of accruals A\$1,758,131).

Råna Project, Norway

Data from the mobile magnetotellurics (MT), ground MT, fixed loop and borehole electromagnetic (EM) geophysical surveys have been received and interpreted, resulting in the generation of multiple nickel-copper-cobalt drill targets at the Bruvann and Rånbogen prospects (see ASX announcements dated 21 July 2023 and 8 August 2023, Figures 2 to 4). Drilling commenced 6 July 2023 and initial results from the Bruvann Mine demonstrate that broad, moderate grade disseminated mineralisation of a similar nature to that mined historically is open down dip and to the west adjacent to historical underground workings. A narrow, high-grade

ASX:KRM

Suite 5 CPC, 145 Stirling Highway,

Nedlands,

Western Australia 6009

zone of massive sulphide mineralisation immediately south of historical workings was also intercepted. Results to date are summarised below (see ASX announcement dated 4 September 2023):

- 2.5 metres at 1.00 % Ni, 0.14% Cu and 0.08 % Co from 172.91 metres (Hole 23BRU001), including 1.0 metre at 1.94 % Ni, 0.18% Cu and 0.18 % Co from 173.91 metres (Figure 5)
- 50.0 metres at 0.43 % Ni, 0.10% Cu and 0.02 % Co from 470.6 metres (Hole 23BRU003) (Figure 6)

Drilling is now targeting massive sulphide mineralisation at the Rånbogen prospect, where surface outcrops of high-grade nickel and copper are observed coincident with strongly conductive MT and EM anomalies.

The Company also announced on 25 July 2023 that the conditions to first completion of the Transaction Implementation Agreement (as amended) announced on 18 January 2023 regarding its staged investment into the Råna Project have been satisfied (First Completion). As at First Completion, the Company has earned a 10% interest in the Råna Project by the issue of 10,000 shares in Narvik Nikkel AS, the joint venture company that operates the Råna Project. The Company intends to proceed to earn the second milestone interest, which equates to a 51% interest in the Råna Project, by incurring \$3 million of expenditure on the Råna Project within the next three years.

Karasjok and Kautokeino Projects

The Company has been granted 291 new exploration licences in Finnmark County, northern Norway, totalling 2,736 square kilometres of early-stage nickel-copper-cobalt-PGE prospective ground across two mineral belts (Figure 7 and ASX announcement dated 4 September 2023). During the six months prior to September 2023, Kingsrose conducted a target generation exercise, which was fully funded by the BHP Xplor Program (see ASX announcement dated 18 January 2023). This exercise has identified a total of 81 targets within two project areas, the Karasjok Project and the Kautokeino Project. At the Virdnemuotki target, reconnaissance sampling returned high-grade copper, palladium, gold and silver from gabbro-hosted sulphide-quartz veins. Such a metal association hosted in a mafic intrusion may represent a late stage, fractionated magmatic sulphide or remobilisation of magmatic sulphide by hydrothermal fluids. Rock chip results include:

- 6.48% Cu, 0.28 g/t Pd, 2.02 g/t Au, 63.3 g/t Ag (Sample 003612)
- 1.41% Cu, 2.02 g/t Pd, 0.76 g/t Au, 5.5 g/t Ag (Sample 003613)
- 8.48% Cu, 2.48 g/t Pd, 1.03 g/t Au, 19.2 g/t Ag (Sample 003614)

Kingsrose is in ongoing exclusive negotiations with BHP regarding future exploration of these Projects, and these Projects are subject to a Right of First Refusal in favour of BHP as described in Kingsrose ASX announcement dated 18 January 2023.

Penikat Project, Finland

No exploration work was conducted at the Penikat project during the quarter, whilst permitting for drilling is being undertaken.

Porsanger Project, Norway

No exploration work has been completed at the Porsanger project during the quarter, whilst permitting for drilling is undertaken.

Inset is a regional scale map showing extension of Palaeoproterozoic greenstone belts from Finland into Norway and selected magmatic nickel-copper and orogenic gold deposits (GA – Gallujavri, IK – Ikkari, KA – Karenhaugen, KE – Kevitsa, KI – Kittila, PO – Porsanger, RU – Ruossokero, SA – Sakatti).

SUSTAINABILITY & PERMITTING

Råna Project, Norway

Local stakeholder communication has continued, which included landowners, the municipality and local businesses. Feedback on the Project and the Company have been largely positive, with much anticipation for the ongoing drilling works.

Penikat Project, Finland

As a significant portion of the Penikat project area lies within the Martimoaapa – Lumiaapa – Penikat Natura 2000 site, the exploration licence applications must be supplemented with a Natura Assessment report.

The Company submitted a Natura 2000 Assessment Report (the Report) for the Ala-Penikka area (Area 1) (Figure 8) to the local Environmental Regulatory Body (ELY) in September 2023. This was followed by a productive face-to-face meeting. It is anticipated that the Natura 2000 Assessment Report for Areas 2-5 will be submitted by the end of November 2023 (Figure 8). Highlights of the Report are as follows:

- Submission of the Report satisfies the key requirement to apply for an exploration licence in Natura 2000 protected areas.
- The Report concluded that the potential impacts of proposed exploration activities were either not present or insignificant and localised.
- With consideration of the permitting process, the Company anticipates that exploration activities may be able to commence December 2024, noting that delays related to public appeals and regulatory processes are possible.
- The Report, and planned subsequent report for Areas 2-5, are intended to secure approvals for 443 drill pads and associated access routes for an initial four-year exploration licence which may be extended to a maximum of 15 years.

Through mapping of the permitting regime, Kingsrose has been able to establish milestones and associated timeframes and develop an increased level of clarity in the permitting process. Kingsrose has submitted the Report for Area 1 to ELY, commencing the up to six-month review process by ELY. It is expected that the report for Areas 2 to 5 will be submitted to ELY by the end of November 2023.

Details of the permitting process and associated timeframes are summarized in the permitting roadmap provided in Figure 9.

Engagement with local stakeholders has continued throughout the quarter, with direct contact made with surrounding landowners to the Project. Both in-person and telephone conversations undertaken were positive and constructive. The Company will continue open and transparent dialogue with local stakeholders and local authority representatives.

Porsanger Project, Norway

At the Karenhaugen (Sami translation: Karenvarri) prospect, findings from the ecological and archaeological surveys undertaken in September 2022 have been produced to assist in the planning of the drill hole locations without impacting indigenous special sites or protected species and habitats.

The Company continues to work with the local reindeer herding district, 14A, to finalise a process agreement. The agreement will formalise a clear understanding of the timing and methods of the Company's exploration activities so that the reindeer herding district can be confident that the Company's activities will not impact their livelihood. The local reindeer herding district 14A invited the Company to attend and present at their Annual General Meeting, which was held in early July 2023.

Stakeholder engagement meetings continued throughout the quarter, and a working group with Kingsrose and local stakeholders has been established. The working group involves multiple local group representatives, totalling around 30 participants. The aims of the working group are to provide information and education on exploration activities, and to discuss how the Company can establish and retain a social license to operate within

the community. The first meeting was held in March 2023 and it is anticipated that these meetings will occur regularly.

For personal use only

Figure 8: Kingsrose mineral tenure and geology of the Penikat Project, Finland.

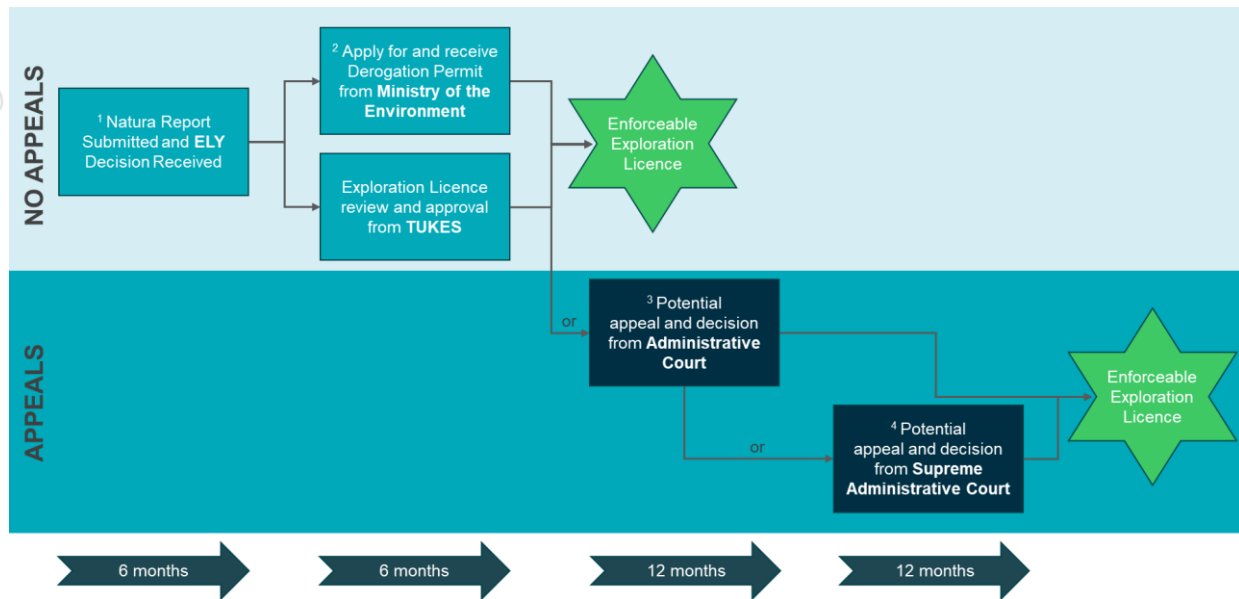

Figure 9: Simplified Permitting Roadmap, Penikat Project, Finland.

Explanatory Notes:

- ¹ The quality of the Natura 2000 Assessment Report and strength of a positive ELY statement may reduce timeframes.
- ² There is not a prescribed timeframe for a decision by the Ministry of Environment, however a positive statement by ELY and proactive engagement by TUKES is believed to support a six-month timeframe.
- ³ An appeal to the Administrative Court is likely, but not certain.
- ⁴ An appeal to the Supreme Administrative Court is unlikely due to the quality of the Natura report and the anticipated positive statement from ELY and endorsement by TUKES.

About Kingsrose Mining Limited

Kingsrose Mining Limited is a leading sustainability-conscious and technically proficient mineral exploration company listed on the ASX. The Company has a discovery-focused strategy, targeting the acquisition and exploration of critical mineral deposits having Tier-1 potential. This has resulted in the acquisition of, or joint venture into, the Råna nickel-copper-cobalt, Penikat PGE and Porsanger PGE-nickel-copper projects in Finland and Norway. Additionally, Kingsrose was selected for the first cohort of the BHP Xplor exploration accelerator program which operated from January to June 2023.

Forward-looking statements

This report includes forward-looking statements, including forward-looking statements relating to the future operations of the Company. These forward-looking statements are based on the Company's expectations and beliefs concerning future events. Forward-looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside the control of the Company, which could cause actual results to differ materially from such statements. The Company makes no undertaking to subsequently update or revise the forward-looking statements made in this announcement to reflect the circumstances or events after the date of this announcement.

Competent Persons Statement

The information in this report that relates to the Exploration Results at the Råna Project was first reported by the Company in compliance with the 2012 edition of the JORC Code in ASX announcements dated 18 January 2023, 6 July 2023, 21 July 2023, 8 August 2023 and 4 September 2023.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the ASX releases referred to above and it further confirms that all material assumptions and technical parameters underpinning the exploration results and exploration target continue to apply and have not materially changed.

N/A			

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(920)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(1,758)
8.3	Total relevant cash inflows / (outgoings) (item 8.1 + item 8.2)	(2,679)
8.4	Cash and cash equivalents at quarter end (item 4.6)	31,811
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	31,811
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	12

Note: If the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: N/A

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: N/A

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

Note: Where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
