DIRECTORS REPORT

The Directors of Kingsrose Mining Limited (“Kingsrose” or the “Company”) present their report for the half year ended 31 December 2022.

DIRECTORS

The names of the Company’s directors in office during the half year and until the date of this report are set out below.

Michael Andrews	Non-Executive Chairman
Fabian Baker	Managing Director
John Carlile	Non-Executive Director
Tim Coughlin	Non-Executive Director
Daryl Corp	Non-Executive Director
Andrew Cooke	Non-Executive Director

Directors were in office for the entire period unless otherwise stated.

PRINCIPAL ACTIVITIES

The principal activities of the Group during the reporting period were:

- Divestment of the Way Linggo project in Indonesia; and
- Work on entering into a Transaction Implementation Agreement for a staged investment into the brownfield Råna Nickel-Copper-Cobalt (Ni-Cu-Co) project in Norway (announced January 2023); and
- Exploration and evaluation of the Penikat and Porsanger PGE-Nickel-Copper projects in Finland and Norway respectively; and
- Selection after an extensive review process to participate in the inaugural BHP Xplor program (announced January 2023).

OPERATIONS REVIEW

During the period, the Company completed the sale of its interest in the Way Linggo gold project to Capwill Global Limited (**Capwill Global**).

At Completion of the sale, the Company received US\$7,500,000 (or A\$11,250,000¹) that will be used to further its strategy of responsible critical metals discovery. Additionally, the Company will receive a 2% net smelter royalty in respect of the Way Linggo project, subject to a cap of US\$7,500,000 including the applicable withholding tax.

The Company remains well financed, with A\$36.7 million in cash as at 31 December 2022, and continues to assess additional project acquisition and target generation opportunities.

Additionally, the Company recently announced the following post-quarter events:

- On 18 January 2023, Kingsrose announced that it has entered into a Transaction Implementation Agreement (**TIA**) with Scandinavian Resource Holdings Pty Ltd and Global Energy Metals Corporation for a staged investment into the brownfield Råna Nickel-Copper-Cobalt (Ni-Cu-Co) project, Norway, and formation of a joint venture for the development and operation of the Project (Figure 1). The TIA allows for Kingsrose to earn up to 75% over 8 years, through staged expenditure up to a total of A\$15m.

¹ Based on USD\$1.00:A\$1.50 by reference to the USD:AUD rate specified on www.xe.com on 16 December 2022.

The Company intends to commence geophysical surveys, geological mapping and geochemical sampling to generate targets for drilling later in 2023.

- Kingsrose also announced on 18 January 2023 that the Company has been selected to participate in the BHP Xplor program. BHP Xplor is an accelerator program introduced by BHP in August 2022, which is designed to help provide participants with the opportunity to accelerate their growth and the potential to establish a long-term relationship with BHP and its global network of partners. The Company will receive up to US\$500,000 in cash payments from BHP and access to a network of internal and external experts, to help advance regional target generation for nickel massive sulphide deposits across two highly prospective but underexplored geological belts in Finland and Norway.

EXPLORATION

Penikat Project, Finland

An airborne magnetic survey was completed between 12-14 October 2022, covering the entire Penikat project over an area of approximately 25 square kilometres using a UAV mounted magnetometer, at a line spacing of between 100 metres and 50 metres totalling 868 line kilometres. The data is being interpreted to produce a three-dimensional model which will inform and assist in geological mapping and drill planning.

Detailed drilling, access route and water supply planning continues in support of the licence application process for the entire Penikat project.

Porsanger Project, Norway

Work at Porsanger has delivered an exploration drill target at Karenhaugen as well as identifying a new zone of mineralised intrusions in the southern part of the project area.

Results from resampling of historical drill core at the Porsvann and Karenhaugen prospects confirmed and verified the historical results as well as indicating the presence of anomalous rhodium concentrations associated with the platinum and palladium mineralisation (refer to ASX announcement dated 25 August 2022).

A ground based electromagnetic survey was also completed which has generated a large 350 by 400 metre, shallow and strongly conductive body immediately south from outcropping mineralisation at Karenhaugen (refer to ASX announcement dated 12 October 2022). A drill permit application for Porsvann and Karenhaugen has been submitted and is pending.

Field work at Porsanger also identified mineralised ultramafic intrusions southwest of the initial exploration licence holding acquired from Element-46 Ltd, including a maximum rock-chip sample assay of 0.21% Ni, 0.15% Cu, 0.12 g/t Pt and 0.11 g/t Pd (refer to ASX announcement dated 12 October 2022). The mineralised outcrops occur 1.5 kilometres to the northwest and along strike from a 1.4 square kilometre cumulate texture, layered peridotite through gabbro intrusion which has never been explored for magmatic nickel-copper-PGE mineralisation. Kingsrose has been granted three new exploration licences contiguous with the original block of licences to include these newly identified exploration targets.

Råna Project, Norway

On 18 January 2023, Kingsrose announced that it has entered into a Transaction Implementation Agreement (TIA) with Scandinavian Resource Holdings Pty Ltd and Global Energy Metals Corporation for a staged investment into the brownfield Råna Nickel-Copper-Cobalt (Ni-Cu-Co) project, Norway, and formation of a joint venture for the development and operation of the Project. The TIA allows for Kingsrose to earn up to 75% over 8 years, through staged expenditure up to a total of A\$15m. The Company intends to commence geophysical surveys, geological mapping and geochemical sampling to generate targets for drilling later in 2023.

BHP Xplor Program

Kingsrose announced on 18 January 2023 that the Company has been selected to participate in the BHP Xplor program. BHP Xplor is an accelerator program introduced by BHP in August 2022, which is designed to help provide participants with the opportunity to accelerate their growth and the potential to establish a long-term relationship with BHP and its global network of partners. The Company will receive up to US\$500,000 in cash payments from BHP and access to a network of internal and external experts, to help advance regional target generation for nickel massive sulphide deposits across two highly prospective but underexplored geological belts in Finland and Norway.

SUSTAINABILITY

Company Updates

During the period, the Company was invited to become a member of Euromines. Euromines is the recognised representative of the European metals and minerals mining industry. The main objective of Euromines is to promote the industry and to maintain its relationship with European institutions at all levels. In addition, the association provides advocacy services with regard to EU policy and serves as a network for cooperation and exchange of information throughout the sector. Kingsrose has joined several Euromines committees to foster contacts and contribute towards the development of policy and best practice in exploration and mining in Europe.

Penikat Project, Finland

As a significant portion of the Penikat project area lies within the Martimoaapa – Lumiaapa – Penikat Natura 2000 site (Figure 2), the exploration licence applications must be supplemented with a report called a Natura Assessment.

The Natura Assessment for the Ala Penikka exploration licence application was submitted in August 2022 and is being reviewed by the Finnish environmental authorities. An in-person meeting with the Finnish authorities was held in January 2023 to discuss the content of the assessment and its processing.

Review by Finnish environmental authorities is expected to take up to six months. This is then followed by a processing and public consultation period by the Finnish exploration licence awarding authority TUKES, expected to last approximately four months. In parallel, a research permit is also required from the Environmental Ministry. The timeline for processing this application is imprecise but is currently expected to take between 3 and 12 months. The Company is actively engaging with the relevant authorities and expects to provide a full update on the status of these permit applications and expected timelines in Q4 FY2023 when more specific information is expected to be available.

For the remaining four exploration licence application areas, drill planning and a series of protected species and habitat surveys were undertaken during May through to September last year and will be completed in March-May of 2023 in preparation for the submission of the Natura Assessment. Once submitted in late Q4 FY2023, this will be followed by the same process as detailed above for a decision to be made by the relevant Finnish regulatory bodies in relation to the award of the exploration licences.

The Martimoaapa – Lumiaapa – Penikat Natura 2000 site is an important habitat for several protected species, including large birds of prey and rare flora. As part of the required surveys, trapping and tracking of large birds of prey were completed in December 2022 allowing data to be collected to identify important habitats and nesting sites. Exploration plans will be adjusted to avoid and mitigate any potentially negative impact exploration activities might have on these important natural values.

Engagement with local stakeholders has continued throughout the quarter, with direct contact made with surrounding landowners to the project. Both in-person and telephone conversations undertaken were positive and constructive. The Company will continue open and transparent dialogue with local stakeholders and local authority representatives. Site visits by these parties are planned for European spring of 2023.

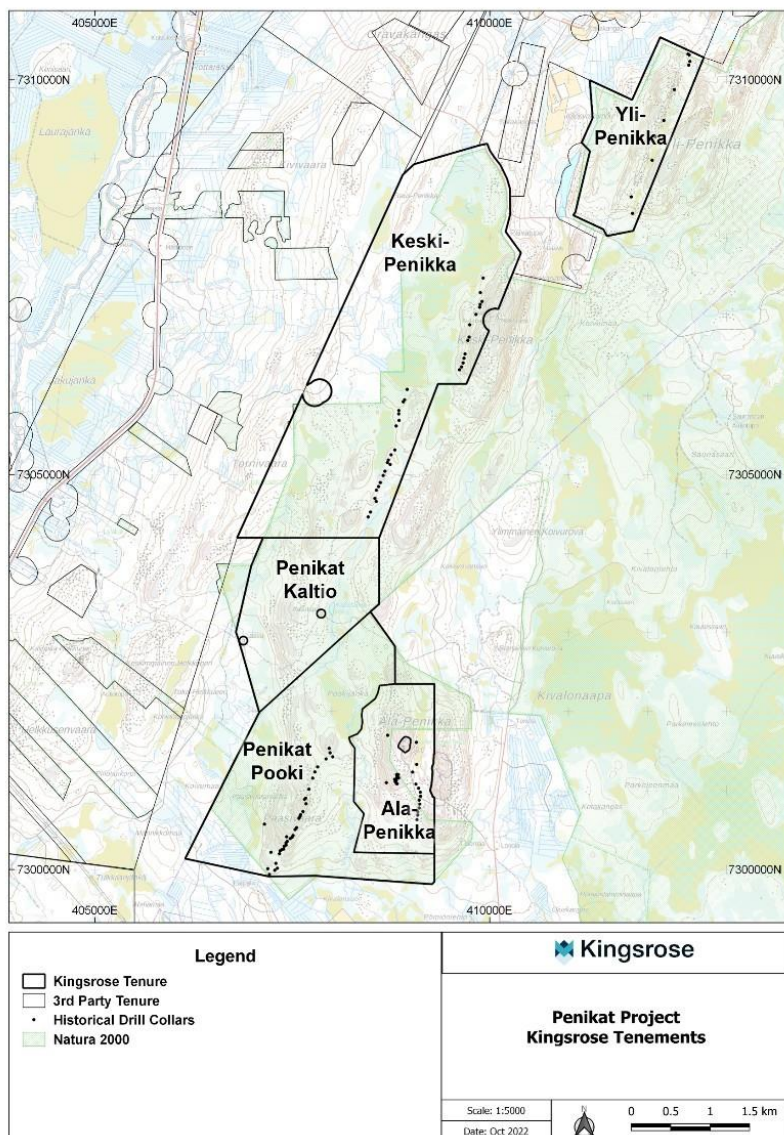

Figure 2: Penikat exploration licence areas

Porsanger Project, Norway

At the Karenhaugen (Sami translation: Karenvarri) prospect, findings from the ecological and archaeological surveys undertaken in September 2022 have been produced to assist in the planning of the drill hole locations without impacting indigenous monuments or protected species and habitats.

The Company continues to work with the local reindeer herding district, 14A, to finalise a process agreement. The agreement will formalise a clear understanding of the timing and methods of the Company's exploration activities so that the reindeer herding district can be assured that the Company's activities will not impact their livelihood.

Stakeholder engagement meetings continued throughout the quarter, and a working group with Kingsrose and local stakeholders has been established. The working group involves multiple local group representatives, totalling around 30 local participants. The aims of the working group are to provide information and education on exploration activities, and to discuss how the Company can obtain a social license to operate within the community. The first meeting was held in mid January-2023 and the next is scheduled for late March 2023.

¹ EBITDA has been calculated by adding back interest, tax, depreciation and amortisation to net loss after tax.

² EBIT has been calculated by adding interest and tax to net loss after tax.

Note: EBITDA and EBIT are non-IFRS measures and unaudited. These measures are used in order to provide more meaningful information for the users of the Group's financial information and to allow users to assess the Group's performance relative to other companies in the industry.

Income Statement

The Group recorded a net loss after tax for the half year ended 31 December 2022 of \$5,916,453 (31 December 2021: net loss after tax \$7,439,890), attributable to expenditure on corporate administration, divestment of Way Linggo project, offset by bank interest received and unrealised foreign exchange gains recognised during the period.

Revenue

There was no sales revenue recorded during the half year ended 31 December 2022.

Loss from sale of discontinued operation

The Group recorded a loss on the disposal of its investment in the Way Linggo project of \$5,534,155.

Financial Position

Assets

At reporting date, the Group's total current assets were \$36,862,745 inclusive of cash and cash equivalents of \$36,695,785.

Non-current assets of the Group stood at \$5,654,406 at balance date, \$10,722,515 lower than at 30 June 2022, largely due to the removal of those non-current assets that were part of the divestment of the Way Linggo project.

Liabilities

At reporting date, the Group's total liabilities were \$1,658,001, \$1,937,179 lower than 30 June 2022 mainly due to the removal of those liabilities that were part of the divestment of the Way Linggo project.

These factors resulted in a decrease in total Group net assets of \$1,017,219 to a total of \$40,859,150.

Group Cash Flows and Liquidity

The Group had net operating cash outflows of \$1,209,845 during the period.

At balance date, the Group held cash and cash equivalents of \$36,695,785 (30 June 2022: \$27,626,719).

CORPORATE

Board and Executive Management Changes

No board or management changes occurred during the period.

EVENTS AFTER REPORTING DATE

- On 18 January 2023 the Company announced that it has entered into a transaction implementation agreement (Transaction Implementation Agreement) with Scandinavian Resource Holdings Pty Ltd (SRH) and Global Energy Metals Corporation (GEMC) for a staged investment into the brownfield Råna Nickel-Copper-Cobalt (Ni-Cu-Co) project (Project) and formation of a joint venture for the development and operation of the Project.
- On 18 January 2023 the Company announced that it has been selected to participate in the BHP Xplor program. BHP Xplor, an accelerator program introduced by BHP in August 2022, is designed to help provide participants with the opportunity to accelerate their growth and the potential to establish a long-term partnership with BHP and its global network of partners.
- On 6 March 2023 the Company announced that it has entered into an Option Agreement with VIAD Royalties AB (Optionor), a wholly owned subsidiary of EMX Royalty Corp (EMX), to purchase Rana Nickel AS (Target), a Norwegian incorporated entity that holds a 100% interest in 19 exploration licences (EMX Licences) totalling 183 square kilometres adjacent to the brownfield Råna Nickel-Copper-Cobalt (Ni-Cu-Co) project held by the Company under a joint venture.

Other than the above, there are no other material subsequent events after the balance date.

AUDITOR'S INDEPENDENCE DECLARATION

Ernst and Young's independence declaration is set out on page 12 and forms part of the Directors' Report for the half year ended 31 December 2022.

Signed in accordance with a resolution of the Directors.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

1. CORPORATE INFORMATION

This half year financial report of Kingsrose Mining Limited (“Kingsrose” or the “Company”) and its controlled entities (the “Group”) for the half year ended 31 December 2022 was authorised for issue in accordance with a resolution of the directors on 14 March 2023.

Kingsrose is a for-profit company limited by shares, incorporated and domiciled in Australia whose shares are publicly traded on the Australian Securities Exchange (ASX: KRM).

The nature of the operations and principal activities of the Group are described in the Directors’ Report.

The address of the registered office of the Company is 45 Ventnor Avenue, West Perth WA 6005.

The Group’s corporate structure is:

* On 16 December 2022 the Company announced the completion of the sale of the interest in the Way Linggo gold project which comprised the entities of Natarang Offshore Pty Ltd and PT Natarang Mining (PTNM).

Information on other related party transactions of the Group is provided in Note 15.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

2. BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES

(a) Basis of preparation

This half year financial report for the interim period ended 31 December 2022 is a general purpose condensed financial report for the half year ended 31 December 2022 prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

The half year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Group as the full financial report.

It is recommended that the half year financial report should be read in conjunction with the annual financial report of Kingsrose as at 30 June 2022 and considered together with any public announcements made by the Company during the half year ended 31 December 2022 in accordance with the continuous disclosure obligations arising under the *Corporations Act 2001* and the ASX listing rules.

Except as disclosed below, the accounting policies and methods of computation are the same as those adopted in the most recent annual financial report.

(b) Going concern

During the half year ended 31 December 2022, the Group recorded a net loss for the period of \$5,916,453, with cash outflows from operations of \$1,209,845 and had positive net working capital of \$36,110,470. The Group has prepared a 15-month cash flow forecast which indicates adequate cash flows to sustain operations and as a result the financial statements have been prepared on a going concern basis which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

(c) New accounting standards and interpretations adopted

The Group has adopted all Accounting Standards and Interpretations effective from 1 July 2022.

New and amended Accounting Standards and Interpretations applied for the first time from 1 July 2022 did not have a significant impact on the consolidated financial statements of the Group.

(d) Amended accounting standards and interpretations issued but not yet effective

The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

(e) Acquisitions

The acquisition method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. Identifiable assets acquired, and liabilities and contingent liabilities assumed, in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest.

When an asset acquisition does not constitute a business combination, the assets and liabilities are assigned a carrying amount based on their relative fair values in an asset purchase transaction and no deferred tax will arise in relation to the acquired assets and assumed liabilities as the initial recognition exemption for deferred tax under AASB 112 applies. No goodwill will arise on the acquisition and transaction costs of the acquisition will be included in the capitalised cost of the asset.

Assets acquired during the prior period were capitalised as exploration assets.

Notes

- (i) On 30 November 2021, the Group acquired 88.2% issued capital of E46 with the balance of 11.8% subsequently acquired following the Company's Annual General Meeting held on 28 January 2022. The total consideration under the acquisition comprises a mixture of upfront and deferred considerations. The fair values of the purchase considerations have been allocated to the acquired assets and liabilities as at the acquisition date. The fair value of the upfront consideration settled in equity of \$1,313,533 was measured based on the share price of the Company at acquisition date and was recognised as increase in issued capital during the period. The fair value of the deferred consideration to be settled in equity of \$2,517,1333 is measured using a probability of 100% likelihood of achieving the contingent event based on share price of the Company at acquisition date and was recognised as increase in share-based payments reserve during the period. The fair value of the deferred consideration to be settled in cash is discounted to net present value of expected settlement date and was recognised as other non-current liabilities (Note 13).
- (ii) At each reporting date, the Group undertakes an assessment of the carrying amount of its exploration and evaluation assets. During the half year ended 31 December 2021, the Group has not identified any indicator of impairment on its exploration and evaluation assets. However during the prior year a write off of \$10,594,325 was recognised in the income statement in relation to areas of interest where no future exploration and evaluation activities are expected.
- (iii) On 16 December 2022 the Company announced the completion of the sale of the interest in the Way Linggo gold project. As a result of this divestment all exploration and evaluation assets relating to Way Linggo have been removed from the statement of financial position.

15. RELATED PARTY DISCLOSURES

Drilling Services

PT Promincon Indonesia, an entity related to Dr Andrews (Non-Executive Chairman), received \$0 fees for drilling services provided to the Company's subsidiary, PTNM during the period (2021: \$213,641). These fees are payable at normal commercial terms. During the period, the Company has disposed PTNM to Capwill Global Ltd.

E-46 Acquisition

E-46 was acquired for a total consideration of \$5,206,743 including cash, shares and deferred consideration. Fabian Barker and Tim Coughlin had an ownership interest in E-46 of 0.9% and 10.8% respectively as at the acquisition date on 30 November 2021.

16. COMMITMENTS AND CONTINGENT LIABILITIES

There are no material commitments and contingent liabilities as at and for the half year ended 31 December 2022.

17. CHANGE IN COMPOSITION OF THE GROUP

Since the last annual reporting date the composition of the Group has changed through the disposal of sale of its interest in the Way Linggo gold project to Capwill Global Limited. This has resulted in Natarang Offshore Pty Ltd and PT Natarang Mining no longer forming part of the composition of the Group from 16 December 2022. An additional entity, Kingsrose Exploration AS, was incorporated during the period to support the Group's exploration activities in Norway.

18. IMPAIRMENT TESTING OF NON-CURRENT ASSETS

In accordance with the Group's accounting policies, each asset or cash-generating unit (CGU) is evaluated to determine whether there are any indications of impairment. If any such indications of impairment exist, a formal estimate of the recoverable amount is performed.

In assessing whether an impairment is required, the carrying value of the asset or CGU is compared with its recoverable amount. The recoverable amount is the higher of the CGU's fair value less costs of disposal (FVLCD) and value in use (VIU). FVLCD will provide the higher value for these assets as a VIU cannot be determined for the Exploration Assets given the nature of these assets.

The assessment has determined that no further impairment is required at 31 December 2022.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

19. DISCONTINUED OPERATION

In February 2022, the Group announced that it was considering divestment opportunities for the Way Linggo project.

On 3 October 2022, the Group entered into a binding Share Sale and Purchase Agreement with Capwill Global Ltd for the sale of the Way Linggo gold project, via the sale of the entire issued capital of its subsidiary, Natarang Offshore Pty Ltd.

Upon completion of all closing conditions of the agreement on 16 December 2022, the Group received gross proceeds of US\$7.5 million (approximately A\$11.07 million).

Additionally, the Group will receive a 2% net smelter royalty in respect of the Way Linggo project, subject to a cap of US\$7,500,000 including the applicable withholding tax payable from the restart of the smelter operation.

(a) Financial performance and net cash flow generated from sale of the discontinued operation

20. SEGMENT INFORMATION

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Consolidated Entity that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance. The Consolidated Entity has one operating segment being mineral exploration. In the 30 June 2022 financial report the Group identified gold and silver as its single operating segment. During the current half-year the Way Linggo project (gold and silver) was disposed of, please refer to note 19 for further details.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

21. EVENTS AFTER REPORTING DATE

- On 18 January 2023 the Company announced that it has entered into a transaction implementation agreement (Transaction Implementation Agreement) with Scandinavian Resource Holdings Pty Ltd (SRH) and Global Energy Metals Corporation (GEMC) for a staged investment into the brownfield Råna Nickel-Copper-Cobalt (Ni-Cu-Co) project (Project) and formation of a joint venture for the development and operation of the Project.
- On 18 January 2023 the Company announced that it has been selected to participate in the BHP Xplor program. BHP Xplor, an accelerator program introduced by BHP in August 2022, is designed to help provide participants with the opportunity to accelerate their growth and the potential to establish a long-term partnership with BHP and its global network of partners.
- On 6 March 2023 the Company announced that it has entered into an Option Agreement with VIAD Royalties AB (Optionor), a wholly owned subsidiary of EMX Royalty Corp (EMX), to purchase Rana Nickel AS (Target), a Norwegian incorporated entity that holds a 100% interest in 19 exploration licences (EMX Licences) totalling 183 square kilometres adjacent to the brownfield Råna Nickel-Copper-Cobalt (Ni-Cu-Co) project held by the Company under a joint venture.

Other than the above, there are no other material subsequent events after the balance date.

DIRECTORS' DECLARATION

In the opinion of the Directors:

- (a) The interim consolidated financial statements and notes of the entity for the half year ended 31 December 2022 are in accordance with the *Corporations Act 2001*, including:
 - (i) Giving a true and fair view of the entity's interim consolidated financial position as at 31 December 2022 and of its interim consolidated performance for the half year ended on that date; and
 - (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
- (b) There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors.

Independent auditor's review report to the members of Kingsrose Mining Limited

Conclusion

We have reviewed the accompanying half-year financial report of Kingsrose Mining Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 31 December 2022, the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at 31 December 2022 and of its consolidated financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibilities for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

**Building a better
working world**

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
